

# Your Success Starts Here

Our expert technicians provide tailored Operation and Maintenance training for your machines.

**Empower Operators**

**Optimize Performance**

## HartnessTRAINING Packages

### Formal Training

- 6 hours of classroom instruction
- 2 hours of machine-side instruction
- 1 training manual per person
- 1 Service Technician per 8 trainees

### Informal Training

- 8 hours of machine-side instruction
- 1 Service Technician per 8 trainees

*Operator and Maintenance Training conducted separately.*

## Empower Operators

Training instills confidence in operators and technicians, empowering them to handle tasks effectively, troubleshoot problems independently, and maximize machine capabilities, resulting in improved performance and output quality.

## Optimize Machine Performance

Proper training includes preventive maintenance instruction to extend machine lifespan, reduce repairs, and enable prompt issue identification, minimizing downtime for smooth operations.

## Ensure Safety Compliance

Training instills a thorough understanding of safety protocols and best practices, effectively reducing accident risks and ensuring compliance with machine operation and safety regulations.
